- Drawings and annotations in Microsoft® PowerPoint® presentations.
- Work more efficiently with faster navigation.
- Low power consumption.

Sign electronic forms in Word documents

Personalise e-mails with your signature in Word documents

You can now make your PowerPoint® presentations far more dynamic and engaging with Wacom PenPartner. If you use Microsoft® PowerPoint® 2002 or later, you already have built in features that are activated by the PenPartner, allowing you to draw and annotate in your PowerPoint® presentations; or to maintain their attention or write notes from audience feedback. Highlight special points and make diagrams to aid in understanding complex issues, all done easily, right there in the presentation. Then save the results for distribution or review.

## Bundled Software

Make handwritten notes directly into Microsoft® Word, Excel, and PowerPoint® documents via the special tool bar that is added automatically to your Microsoft® Office applications.
